Actual-size screw length key

Print at 100% (actual size). Turn off Fit, Shrink and Scale to page.

Check the 50 mm ruler and the 20 × 20 mm square with a real ruler before use.

Measure from the middle of the printed lines. A screen is not a size reference.

Place the underside of each head on the start line. Match the tip to the end.

All lengths below exclude the head. Head outlines identify the style only.

These outlines are not recess-fit gauges; the M2 kit head dimensions are unmeasured.

Nuts and washers supplied by the kits

M2 nuts: 35 · M3 nuts: 59 · M2 washers: 4

The four M2 washers go under the eye-housing screw heads. No speaker washers.

Kit washers are not drawn to scale: their dimensions have not been measured.

Servo center screws: 3 · supplied with the servos.

Keep each center screw with its servo horn. Do not substitute an M2 screw.
